REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that no prior art of record discloses or suggests a process for decontaminating used oil in which metals are removed in step a) to c). In step d), sulfate and phosphate ions are precipitated in form of barium sulfate and phosphate. Step b) enables distillation to be carried out at step e) without the problem of fouling at the bottom of the column and enables a final treatment using clay to be carried out. The combination of features is not obvious from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
